Sir

I have the honor to submit herewith in original (to be obligingly returned) Divl Engr Nattchini No 133 of the 21st Instant regarding certain excesses and appropriations on the estimate for the Travellers Bungalow at Kallar Anicut

2 Regarding the appropriation Divl Engr Nattchini is evidently out in his calculations and facts stand as follow,

Rs

Appropriation = 3196
Expd in 1905-06 } 1755
do in 1906-07 }
Expenditure to end of last year 878

Bal

His total completed outlay to End of this official year is Rs	4696
Deduct outlay to end of last official year	878
Balance outlay during current year	3818

* Account for January 1908 not received

The current year's grant is only Rs 3196 so that Rs 622/- more will be required which I request may be kindly appropriated.

3 As regards the rates for plastering and whitewashing as sanctioned being too low, I should say that for the

the former certainly is viz Rs 4/- and I would recommend its being increased to Rs 6/- which I think will be ample, and in keeping with the rate for the Inchnad and Laguvatte Tarai = fore that the excess on this item viz 100 squares at Rs 2/- = 200/- may kindly be passed in account.

The rate for white washing as sanctioned by annual 4/- I consider sufficient as I place no reliance on the data quoted by Mr Mr Hutchin, which I am inclined to think allow more chunam than is ever in reality used.

Sir,

On forwarding the accompanying original docket No. 681 dated 3rd instant from the Examiner P. W. Accounts, with its enclosure, I have the honor to request you will be good enough to frame an appropriation of Rupees 909 from District Funds for the ~~Konchance~~ Kengattey Sank, Serial No. 19, Bellur Dasenkerry Series, for 1875/76 to cover the expenditure already incurred, and likely to be incurred to 31st March 1876.

II. The sum now applied for is the cost of widening the bund of the Sank for a roadway, which the Chief Commissioner sanctioned being met from District Funds, on the 1st April 1875=

the steps necessary to obtain
the requisite appropriation for
the work from District Funds
should have been taken by
the Revenue Officers, as is
usual in such cases, but as
the Official year is fast drawing
to a close and there is no time
to follow the usual course
I submit this application

of Mysore & N. D.

Sir

Adverting to your Docket No. 970 of 18th March last forwarding for opinion correspondence relative to the construction of bridges on the line from Tiptur to Yediyur via Turvekere, I have the honor to state as follows.

2 A special meeting of the District Fund Committee was convened for the purpose of discussing the subject of bridging the road in question & the Members were requested to submit an opinion on the following points: 1st/y With reference to traffic requirements that is whether a necessity existed for opening the entire line to Yediyur or merely connecting Turvekere with Tiptur & 2nd/y with regard to the funds available for the estimated outlay.

3 The Committee give an opinion to the effect that the entire line from Tiptur to Yediyur should be bridged & that two thirds of the estimated cost should be met from Imperial

Funds

Funds & the remaining one third from the District Fund Budget.

4 The Committee in coming to this conclusion, observe that the line between Mysdoor & Tiptur is a feeder of the principal marts of almost the whole province & should therefore be considered as an Imperial work rather than a mere local road. But I am not disposed to go the whole way with the Committee in this opinion, as the line between Yedeyur & Tiptur is after all only a connecting link between two important roads.

5 I beg to state that a sum of Rs 4000 was allotted in the District Fund Budget submitted from this Office for 1875.76 for this road; but it has been struck out in the printed Budget now received. Appendix A (statement of the probable receipts) attached to the printed Buget shews that the estimated assets of the Tumkur District for 1875.76 including the opening balances amounts to Rs 71,329 & the estimated expenditure to Rs 52,799 which leaves a balance of Rs 18,530 available at the close of the current year for extra works of importance.

6 A sum of Rs 4000 will moreover be required to be appropriated out of the above

balance for the construction of the Sira Amrapur road, referred to in my letter No. 146 of 11th August 95.

7 I am in favor of the proposal of bridging the whole line above referred to and as there are funds available for the proposed expenditure, I beg to suggest that the Assistant Engineer may be requested to have an estimate framed at his early convenience with the aid of the Assistant Surveyor of the Tumkur District — whose services can be placed at his disposal for the purpose when required.

8. I beg to add that your Docket has remained unanswered pending the receipt of the sanctioned District Fund Budget in order to know in the first instance the available assets of the year.

9 The enclosures of your Docket under reply are herewith returned.

I have the honor to be
Sir

No 2081 A

To the Commissioner of Wanderings

Sir

With reference to my ~~letter~~ letter No 158 of the 15th ~~inst.~~ ultimo I have the honour to observe that since the Irrigable road was first brought round the Govt. of India have definitely agreed to the Programme of Imperial works (forwarded to you under this office No 1985 of the 30th ~~inst.~~ ultimo) and you will observe that although the works included (see item No 106 of the Programme) were ~~transferred from~~ extended during as a possible contingency Column No 7 they do not appear in Column No 11 which has been accepted as the guide for the future

2. Under these circumstances it would be useless to look for any assistance ~~from~~ from the Budget of this Department Excepting possibly the small saleable

Share of grant-in-aid to Dist. Funds (see item immediately following No 108) which in the case of Tonnkeer could I imagine easily exceed 2000 or 3000 Rs per annum.

3. It thus remains likely to consider whether with a total probable outlay of 25,000 on the bridges in question the Tonnkeer Dt. Funds are in a position, with the small contribution already and invariably also some little help from Local Funds Council, to enter upon the works after a careful review of all the item requirements of the dist.

4. Should you be in a position to recommend I shall endeavour to have the details desired furnished

Secretary.

Sir,

In reply to your circular No 34 dated 7th Ultimo, I have the honor to state that the amount allotted to the Hissar District is not required and may be utilized for the purpose therein mentioned.

The assignment of Rs 6,680 for the Umballa District cannot be spared: the Deputy Commissioner states that it will be expended fully before the end of the current official year.

Sir,

In reply to your circular no 34 of the 17th ultimo requesting to report whether any and what savings are likely to occur from the marginally noted grants assigned from the Imperial to District funds, I have the honor to state that the Deputy Comr of Bangalore reports that no savings can be expected at present in his District.

Bangalore 80000
Kolar - 2000
Tumkur 2000

2. In the Kolar District the whole grant has been placed at the disposal of the Deputy Comr under the head "miscellaneous" "Public Improvement" on account of relief works, and almost the whole amount of this allotment has been already expended on such works. As the Rainy season is constantly expected to commence, I hardly expect any savings from the assignment to this District

3. The Deputy Commissioner of the Tumkur District having stated that although he does not require the grant for expenditure during the current year, the amount has been passed to the credit of the District funds in order to meet expenditure

during next year already estimated for in the Budget. The amount can moreover be re-transferred to Imperial Funds, provided it can be made available again for the estimated expenditure above referred to.

No. 284

In reply to his docket No. 1741 dated 2d. Ultimo, has the honor to report that out of Rs 4500 appropriated for improving the road from Kowlandi via Ummatur to Santamarhalli, only Rs 3000 can be spent during the current official year, leaving an unexpended balance of Rs 1500, which together with Rs 53 from the appropriation made to the Chamrajnagar-Santemarhalli road may be resumed and appropriated for the purposes given in the reappropriation statement forwarded to this office with letter No. 210 of 5th January 1876.

The appropriation of Rs 4500 minus Rs 53 made for the Chamrajnagar Santemarhalli road may stand as at present, as the Amildar is trying his best to spend the whole amount on the work.
